A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

- {claim 16} the gray scale value of the print pixel is an average value of gray scale values of all pixels within the print pixel (figure 5B)
- {claim 17} the surrounding pixels are pixels at positions extending from four corners of the print pixel (figure 5B)
- {claim 18} the determining means further determines a driving position of a print element corresponding to a type of ink (column 2, lines 23-66)
